Public Utilities Commission Hears and Decides Several Cases

CIVIL SERVICE EMPLOYEES ARE SOON TO MEET

IN SEPARATE COUNTIES

To Select Delegates to a Statewide Conference to Be Held Thursday—State Bureau of Accounting Makes Ruling—Governor Honors Requisition From Tennessee.

(ASSOCIATED PRESS TELEGRAM)

Columbus, June 14.—The public utilities commission today decided to re-open the case involving complaint by sand and glass companies of the state against rates charged by railroads on silica sand. Complaint was brought originally by the Summit Silica Sand company of Barberton, against a number of railroads doing business in the state but the commission dismissed the complaint then without taking action. Glass or sand companies in Cleveland, Cincinnati, Toledo, Canton and other Ohio cities are interested in the case.

The Lake Erie & Youngstown railway company was granted an extension of two and one-half years in which to complete its line between Conneaut and Youngstown by the state public utilities commission today. The commission also granted to sell \$4,700,000 additional stock and \$5,000,000 bonds. Youngstown in this formerly had complained that the company was badly financed and had paid large extra amounts to certain contractors. This complaint resulted in the commission's making an investigation.

Civil service employees in every county and city in the state are expected to meet separately within the next two days, effect a temporary organization and send delegates to a state wide conference to be held here Thursday evening. George L. Coffinberry, bookkeeper in the state auditor's office and temporary chairman of the civil service employees formed here Saturday, announced today. He explained that formal notices will not be sent to public employees over the state, but that press announcements may be taken as authentic.

Women will be welcomed as members of the proposed state wide federation of civil service employees, Mr. Coffinberry declared, and they probably will be given places on the roll of officers when permanent organization of the state federation is made Thursday evening.

A number of state employees today said they were anxious to join the new organization, whose avowed purpose is to raise the standards in the merit system. Others expressed fear that the real purpose of the association would be to assist in a future referendum on the Barnes-Moore civil service bill. Mr. Coffinberry declared he had heard no suggestion that the organization would be for that purpose.

NORTH CAROLINA MAN IS LEARNING TO EAT WITHOUT A STOMACH.

(Associated Press Telegram) Baltimore, Md., June 14.—Meyer Caplin, a merchant of Newberry, N. C., is at a local hospital here learning under the direction of a trained nurse to eat, virtually without a stomach. He came to Baltimore two weeks ago to be treated for tumor of the stomach and the surgeons removed all but about two inches of this organ. This small flap attached to the esophagus was joined to the duodenum, a part of the small intestine. The man is now able to take into his system food that is easily digested. This he must take standing, a spoonful at a time. The surgeons think he has many years of usefulness ahead of him.

RIOTERS

IN STREETS OF MOSCOW, BECAME UNMANAGEABLE — POLICE POWERLESS

Anti German Demonstrations of a Serious Nature Resulted in Wrecking Business Places.

(ASSOCIATED PRESS TELEGRAM)

Moscow, Friday, June 11, by mail to Petrograd, June 14, via London 2:46 p. m.—Moscow for two days past has seen street rioting and anti-German demonstrations of a serious nature. The police have found it impossible to control the crowds and the people indulged their desires of looting and destruction until they were tired out.

The demonstrations started with outbreaks among some men employed in a certain factory. This led to the belief among some of the lower classes that German sympathizers had poisoned the drinking water of this factory. In the beginning there was a demonstration but the crowd developed into a mob that could not be controlled. All day Thursday and until Friday morning the crowd looted and destroyed. Certain Russian workmen demanded the dismissal of the German employees at the factory in question. This was refused, whereupon men began to gather, carrying Russian flags and pictures of the emperor and singing the national anthem. They moved in the direction of the central square of Moscow, their numbers swelling every moment. They were joined by the unemployed and a gathering of hoodlums. Here it was that the destruction began. German shops were selected in the beginning, but later the operations of the mob extended to every establishment on store that bore other than a Russian name. Consequently many places actually owned by Russians were wrecked.

Thursday night there were fires in various parts of Moscow. The mob became drunk on the spirits it looted from liquor stores and its fury increased during the night. The police endeavored to maintain at least a semblance of order, but they had been surprised by the outbreak and found it impossible to control the crowd.

Finally the exhausted rioters quit their own volition. Friday morning an attempt was made to continue the disorders, but by that time the police had been reinforced by troops and shots were fired over the heads of the mob to intimidate. By this method a resumption of the disorders was prevented.

Several casualties have been reported as a result of the disorders.

FIRST CHIEF ASKS TO BE RECOGNIZED

By United States, Claiming That He Controls a Large Territory

AND HAS INSTITUTED A CIVIL ADMINISTRATION

VILLA REPLIES FAVORABLY

To President Wilson's Suggestion—Ultimate Peace Seems to Be Not Far Off As Seen By Washington Officials—Battle Impending Which May Have Important Results.

(ASSOCIATED PRESS TELEGRAM)

Washington, June 14.—Attention of Washington officials was focused again today on the military situation in Mexico where there was a possibility of important developments which might bring ultimate peace in the southern republic. Chief interest centers in the outcome of the prospective battle between Carranza troops and Villa forces for the possession of Mexico City now in the hands of Villa's men.

Reports here from Carranza sources at Vera Cruz said that General Pablo Gonzales, a Carranza commander, who is now moving toward Mexico City, has been approached by members of the convention party from the Mexican capital, with an offer of an armistice. His answer is said to have been that the forces in Mexico City had better join the Carranza forces or evacuate the city without shedding blood. According to the same information, Gonzales gave the delegates 48 hours to return and present his proposition to the convention.

Developments in the military situation at Mexico City are awaited with considerable interest here, because of the likelihood of their influence on the political side of Mexico's problem.

General Carranza has already put in a bid for recognition basing it on a claim that he controls a large territory and has instituted civil administration. Although making no requests for recognition, General Villa has replied favorably to President Wilson's recent suggestion that the factions in Mexico unite for peace.

VILLA GENERAL HAS ORDERED HIS TROOPS TO USE GREAT CARE.

(ASSOCIATED PRESS TELEGRAM)

Douglas, Ariz., June 14.—Governor Jose Matorena, Villa commander of Sonora, in an announcement made public today, gives the full text of his reply to the warning of Colonel C. M. O'Connor, commanding the United States border patrol issued several days ago to the Villa commanders not to attack Agua Prieta because of the danger to American lives and property on this wide border.

Matorena states that he has advised General Urbalejo, Ocoima and Trujillo to use scrupulous care not to violate the Naco agreement and expose this city to the slightest danger from firing. He adds that but for the fact that the United States is urging him to refrain from attacking border towns he would oust the Carranza forces from Agua Prieta in short order.

Greatest Street Car Strike In History Of the United States Is Now On In Chicago and the Tieup Is Complete

(ASSOCIATED PRESS TELEGRAM)

Chicago, June 14.—What is said to be the greatest street car strike the United States has known, began here at four o'clock this morning. Fourteen thousand persons were thrown out of employment, 1,310 miles of single elevated and surface track rendered idle and a burden thrown on steam roads, automobiles, vans and other vehicles which they were able to meet only in small part.

For four hours not a car moved. Then a southside elevated train carrying a few passengers made a round trip as a test. As a result it was announced an attempt would be made to run trains with strike breakers and guards every 15 minutes. The guard lines made no attempt to work.

Police and private guards were stationed all over company property

Brother of General Villa and "Keno King," Under Arrest

Hipolito Villa. Carlos Jauregui.

Hipolito Villa, brother of the general, who has been the terror of Mexico for nearly two years, and Carlos Jauregui, "keno king of Jauregui," across from El Paso, have been arrested in El Paso, for the common crime of kidnapping.

Jauregui is the only person to be permitted to run a keno game in Juarez. The result is that Jauregui, being a careful and businesslike young man has made a fortune. The two were taken on the charge of conspiracy, in connection with the kidnapping of J. Guaderrama, an American citizen from El Paso, to Juarez.

The kidnapping of Guaderrama, a merchant in El Paso, was one of many similar occurrences, the American authorities state. It is claimed that Mexican officials with a grudge against American citizens or Mexicans in American territory, have not hesitated to seize their victims in El Paso, and rush them to Juarez for execution.

Solicitor Gives Arguments To Georgia's Governor Why Frank Should be Hanged

(ASSOCIATED PRESS TELEGRAM)

Atlanta, June 14.—The hearing on Leo M. Frank's plea for commutation of his death sentence to life imprisonment was resumed before Governor Slaton today and was expected to be completed by night.

Solicitor Dorsey presented his brief against Frank's application and made an oral argument.

Mr. Dorsey discussed the case on three points raised by Frank's attorneys:

First—That Frank was not accorded a fair trial.

Second—That the evidence did not show the defendant's guilt beyond a reasonable doubt.

Third—That Judge L. S. Roan, the trial judge, was convicted of the prisoner's guilt.

Regarding the first point, Mr. Dorsey said counsel never asked a change of venue, and that there was no antagonistic sentiment toward Frank prior to the trial.

"There were developments in the trial," he said, "which might have been circulated to incense the people because of the harrowing details of the crime. The state supreme court however, ruled upon this point that there had been no showing by the defense that there had been any demonstration in the court room which would have been held to have deprived the prisoner of a fair trial."

Judge Roan, himself, declared the solicitor, said he had a fair trial. "The records show," he continued, "the demonstration by the crowd outside the court room was not heard by the jurors, and that there was nothing to justify the allegation that the crowd in the court shouted to the jury, 'Hang Frank or we'll hang you.'"

The state and federal courts, said Mr. Dorsey, held that Frank had not been deprived of any right in that the request of the third judge, when the verdict was returned. The court also held he said, that allegations of mob violence were not sustained.

British Ship Strikes Mine In White Sea and Is Sunk; Others Victims of Torpedoes

(ASSOCIATED PRESS TELEGRAM)

London, June 14.—The British steamship Hopemount, of 3300 tons gross, was torpedoed and sunk today at a point west of Saint Ives, England, by a German submarine. The crew of the Hopemount was saved.

(ASSOCIATED PRESS TELEGRAM)

London, June 14.—(12:22 A. M.)—Two Danish schooners, the Katrine and the Cocos Merstal, were stopped today by a submarine. The crew of the Cocos Merstal was sent aboard the Katrine and the former vessel was then set on fire. The Katrine

has arrived at the Firth of North, Scotland.

(ASSOCIATED PRESS TELEGRAM)

London, June 14.—The British steamship Arndale, of 3583 tons gross, has been sunk as the result of striking a mine in the White sea.

The British steamship Arndale was built in 1906, at Sunderland. She was 340 feet long, 48 beam and 23 feet deep. She was owned by the T. Smalles and Sons Steamship Co., Ltd., of Whitby. The Arndale presumably was carrying a cargo to Archangel the only important Russian port bordering on the Arctic ocean.

A carload of strike breakers was reported to have arrived secretly from Cincinnati. It was stated that no attempt would be made to run surface cars for several days.

The strike went into effect at midnight last night. Not a wheel on the 1,301 miles of track of surface and elevated lines turned after three o'clock this morning when the last crews took their cars into the barns. It was the first time in a generation that all street car service was completely tied up.

The strike was carried out without any disorder, according to early reports. Seven hundred policemen were on guard at the various car barns throughout the city to watch

(Associated Press Telegram.) Connellsville, Pa., June 14.—The H. C. Frick Coke Company has issued orders for the firing of 1,000 additional coke ovens in this district which will afford employment to more than 1,000 men. The company already has 12,895 ovens in operation out of a total of 19,224.

NEEDS

OF UNITED STATES FROM A MILITARY STANDPOINT DISCUSSED AT BIG MEETING

All Classes Represented and Prominent Speakers Present—Big Exhibit of Warfare Machinery.

(ASSOCIATED PRESS TELEGRAM)

New York, June 14.—Soldiers, sailors, statesmen, clergymen, representatives of labor and of business met here today to discuss the military needs of the nation. The national security league with which the idea of the gathering originated named it the peace and preparation conference. To supplement arguments to be advanced by a number of prominent speakers the league has installed in the hotel Astor an exhibit of the machinery of warfare ranging from small arms to a Whitehead Torpedo 21 feet long.

The first speaker today was William Prendergast, city controller who delivered an address of welcome. The afternoon program calls for speeches by Colonel Charles E. Lydecker, the chairman; Captain Matthew E. W. Hanne, U. S. A. retired; Major Haver Putnam; Hudson Maxim, the inventor and Colonel John H. Dunn.

Alton B. Parker will preside at a mass meeting tonight in Carnegie Hall. The speakers include the Rev. Dr. Lyman Abbott, and three former secretaries of war, Henry L. Stimson, Charles A. Bonaparte and Jacob M. Dickinson. The conference will conclude tomorrow.

The letter sent by the conference committee on national defense inviting the labor unions to send representatives said:

"The two classes that pay for the ravages of war most heavily are the laboring class and the women of the country. In the event of our being called upon for the protection of the flag conscription would be a national duty and labor would constitute an important element in the human bulwark of the nation. Wives, sisters and daughters would live to see the annihilation of our unequipped men in the scientific attack of modern war. With a well organized, efficient and powerful system of national defense the conscription and murder of our masses would not take place."

BRYAN WOULD NOW STOP WAR BY "STATEMENT"

(ASSOCIATED PRESS TELEGRAM)

Washington, June 14.—Former Secretary Bryan made known through friends here today that he will issue another statement proposing a means of ending the war.

The statement, which will be issued Tuesday or Wednesday, will not deal with his resignation from the cabinet but with "the war, as it is; the causes that led to it, and the way out."

The statement will be entitled, "The Causeless War." It was said it would be Mr. Bryan's last, "for the present."

Sunday Afternoon's Storm Had Fatal Results And Did Much Damage Over Ohio

Columbus, June 14.—A storm which was general all over Ohio did thousands of dollars' worth of damage Sunday afternoon, caused two deaths and sent hundreds of pleasure seekers to cover. A heavy wind and electrical storm accompanied the rain. Buildings were unroofed, trees blown down, much damage done to telephone and telegraph wires and other havoc wrought.

At Lockland, near Cincinnati, August Dorine, while trying to move a fallen live wire from a pavement across which the wind had blown it, was killed instantly. Dorine was trying to make it safe for little children to pass.

William Sparrowgrove, aged 60, a farmer of Sonora, near Zanesville, was struck by lightning and killed instantly. Sparrowgrove and his dog had taken refuge under a tree, which was demolished by a bolt, both man and dog being found dead a few minutes later by members of the family.

Much fear was felt by the thousands of persons at Buckeye Lake Park for the safety of the hundreds of fishermen and pleasure seekers who were out on the lake when the storm broke shortly after 4 o'clock yesterday afternoon. A gale blowing 60 miles an hour, lasted nearly 30 minutes, causing mammoth caps. Those in charge of the Del Fisher Boat Line scoured the lake with field glasses for upturned boats. Only one was sighted. The life-saver who manned the rescue boat found the upturned craft to be one which had broken loose from shore and had drifted toward the middle of the lake.

In the city, there was little damage other than that done to trees when limbs were blown off. In several cases chimneys were blown from houses etc. A case in front of the Cornell clothing store was blown over and destroyed.

One of the doors at police headquarters was blown shut and shattered, the entire top of the frame being torn away. Headquarters Officer Donley narrowly escaped being caught under the falling debris.

Telephone companies were busy all day Monday repairing damage done to wires and cables.

FRENCH ARE UNRELENTING IN OFFENSIVE

Which Is Continuing to Net Them Slow Progress In Northwestern France

BUT EASTERN SITUATION IS MOST IMPORTANT

EVERY NERVE STRAINED

By the Austro-Germans to Deliver a Crushing Blow to Russia, But the Latter's Lack of Ammunition Seems to Have Been Overcome, and Her Troops Are Making Valiant Stand.

(ASSOCIATED PRESS TELEGRAM)

London, June 14.—Although the French would appear to be unrelenting in their offensive work, which is netting them slow progress in north-eastern France, the situation in the eastern arena of the war, where the Austro-Germans are straining every nerve to deliver a crushing blow to the Russians, remains of the utmost importance. No confirmation has yet been received of the report that the Austro-Germans have occupied Znamna, but further to the south they are across the River Dniester and on Russian soil in Bessarabia.

Not for months past has there been such general activity on the eastern front. Choked at the center of the Galician front, the Austro-Germans have developed an offensive on both wings at the same time and they are starting another battle, being planned to the north of Przasnysz. There is confused fighting going on at the same time in the Baltic provinces, so it may be said that the contenders are at groups once more from the Baltic to the Rumanian frontier.

The stand which the Russians have been making recently in Galicia indicates to British observers that their shortage of ammunition has been overcome. It was this shortage, according to the belief here, that enabled the Austro-Germans last month to sweep across the country and take Przemysl, in such record time.

In Greece the followers of former Premier Venizelos, who resigned because Greece would not enter the war on the side of the allies, seemed to have the upper hand judging from the early returns of the general elections held in that kingdom. Endorsement of the policies of M. Venizelos may have a bearing on Greece's future course of action.

FATAL RESULTS OF RIOTING IN SOUTH CAROLINA

(ASSOCIATED PRESS TELEGRAM)

Winnboro, S. C., June 14.—A white man named Eisenhauer and Utes Smith, a negro charged with criminal assault were killed and five officers were wounded including Sheriff A. D. Hood, probably fatally, during a riot early today when a mob attempted to take Smith from the sheriff's office. During the fighting that followed Smith's body was riddled with bullets.

The Pacificists Are Teaching Poltroonery and Cowardice, Is Col. Roosevelt's Opinion

New York, June 14.—Theodore Roosevelt's views on arbitration treaties, war unpreparedness and pacifists, expressed in a letter written by him under date of June 3, to Hudson Maxim, were to be given the National Security League by Mr. Maxim. After referring to letters on unpreparedness sent to Mr. Maxim by Oscar Strauss and others, Colonel Roosevelt's missive continued:

"I was saddened by the extraordinary letter sent you by the three young men who purported to speak for the senior class of the college of which they are members. The course of conduct which these men and those like them advocate for the nation would of course not only mean a peculiarly craven avoidance of national duty by our people at this time, but would also inevitably tend permanently to encourage the spirit of individual cowardice no less than of national cowardice.

"The professional pacifists, the professional peace-at-any-price men, who during the last five years have been so active, who have condemned our criminal inactivity as regards Mexico and above all as regards the questions raised by the great world

war, now going on, and who have applauded our abject failure to live up to the obligations imposed upon us as a signatory power of The Hague conference, are at best an unlovely body of men, and taken as a whole are probably the most undesirable citizens that this country contains.

"The advocates of pacifism, who have been preaching poltroonery. Such preaching if reduced to practice is ruinous to national character. These men have been doing their best to make us China of the ocean.

"The prime duty for this nation is to spare itself so that it can protect itself. Righteousness must be put before peace. It is wicked to be neutral between right and wrong; and this statement can be successfully refuted only by men who are prepared to hold up Pontius Pilate the arch typical neutral of all time, as worthy of our admiration. An ignoble peace may be the worst crime of all humanity; and righteous war may represent the greatest service a nation can at a given moment render to itself and to mankind."

MRS. LYON'S
ACHES AND PAINS
Have All Gone Since Taking
Lydia E. Pinkham's Veg-
etable Compound.

Terre Hill, Pa.—"Kindly permit me to give you my testimonial in favor of Lydia E. Pinkham's Vegetable Compound. When I first began taking it I was suffering from female troubles for some time and had almost all kinds of aches—pains in lower part of back and in sides, and pressing down pains. I could not sleep and had no appetite. Since I have taken Lydia E. Pinkham's Vegetable Compound the aches and pains are all gone and I feel like a new woman. I cannot praise your medicine too highly."—Mrs. AUGUSTUS LYON, Terre Hill, Pa.

It is true that nature and a woman's work has produced the grandest remedy for woman's ills that the world has ever known. From the roots and herbs of the field, Lydia E. Pinkham, forty years ago, gave to womankind a remedy for their peculiar ills which has proved more efficacious than any other combination of drugs ever compounded, and today Lydia E. Pinkham's Vegetable Compound is recognized from coast to coast as the standard remedy for woman's ills.

In the Pinkham Laboratory at Lynn, Mass., are files containing hundreds of thousands of letters from women seeking health—many of them openly state their own signatures that they have regained their health by taking Lydia E. Pinkham's Vegetable Compound; and in some cases that it has saved them from surgical operations.

VEGETABLE
CALOMEL

Vegetable calomel, extract of the root of the old-fashioned may-apple plant, does not salivate. As a liver stimulant, it's great. It's a perfect substitute for ordinary calomel (mercury); in fact, it's better, because its action is gentle instead of severe and irritating—and it leaves no mean, disagreeable after-effects. Physicians recognize this and prescribe may-apple root (podoophyllin, they call it) daily.

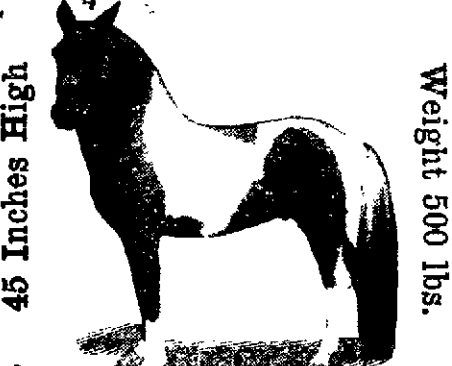

Combined with four other standard, all-vegetable remedies, may-apple root may now be had at most any druggist's in convenient sugar-coated tablet form by asking for Santal Laxatives. If you forget the name, ask for the box that has the picture of the soldier on it.

These tablets are small, easy to take and are really wonderful little performers.

They quickly clean out the poisons that are causing you headache, constipation, sour stomach, biliousness, dizzy spells, bad breath and coated tongue.

They are mild. They never gripe. And they are a bowel tonic as well as a cleanser and liver regulator. A 10c box should last one several weeks. A Physician's trial package (4 doses) will be mailed you free if you write mentioning this advertisement. The Santal Remedies Co., 302 Madison Ave., Covington, Ky.

St. Louis, Mo., June 14.—What is said to be the largest in American flags was presented to the city of St. Louis during the flag day celebration here today. It was 150 by 87 feet and weighs 400 pounds. It was given to the city by the million population club.

In a recent parade, 150 men and 60 Boy Scouts were required to bear the emblem.

PRESIDENT WILSON SPEAKS.

Washington, June 11.—Flag day celebrations were held here today with the most elaborate exercises being on the south portico of the treasury department building, in which President Wilson and other high government officials participated.

Secretary McAdoo and an address by the President featured the program.

property and prevent crowds from congregating. The men cheered as they left the barns.

Orders to strike were issued after an all day conference yesterday of union leaders, transportation company officials and Mayor Thompson in a vain attempt to bring about arbitration. Neither side would yield. The strikers had demanded a guarantee of a wage increase. Officials of the companies refused this demand. To meet it, company officials said would mean an increase of \$1,600,000.

Approximately 3,000,000 fares are collected on the two electric systems daily. The surface lines collect 2,000,000 and the elevated 1,000,000. The surface line operates 1,905 miles. Hurdled preparations were made over-riding by officials of street roads to bring to work today the great armies of clerks in stores, office workers and others in business in the downtown district. Hundreds of trains are added to the schedule.

Taxis had a rushing business and the "jitneys" buses, which heretofore have failed to make much progress in the transportation problem were loaded with passengers. Hundreds of big motor moving trucks also were pressed into service. Roller skates also were brought into use, and thousands pedaled to their work on bicycles.

Delivery of the United States mail puzzled the postoffice. The re-organization of the street car system will have to be undertaken it was announced, and in many of the suburban districts there will be but one delivery a day until another system is perfected. It was learned that the dozen or more street cars carrying the mails from the postoffice to the substations in various parts of the city would be operated as usual.

Mrs. Ella Flagg Young, superintendent of public schools, asserted that attempts would be made to continue the schools without interruption, although the problem of transporting 7,000 teachers gave great concern.

Arrangements to furnish 5,000 strike breakers to operate cars and guard property were put into operation today. Agents of the two electric lines had arranged, it was said, to provide food and sleeping quarters in several large hotels. Employment agencies had a record breaking business in procuring men for strike breaking duty.

Banquet halls, sample rooms and even the roofs of the large downtown hotels have been converted into sleeping quarters for nearly 15,000 persons who will be obliged to live near their places of business during the strike. The demand for cots to be placed in office buildings was exceedingly brisk. Thousands of persons have planned to sleep in their offices.

Managers of theatres within the business district announced that they would close unless the strike was speedily settled. Baseball at the National League Park, the only Chicago club now on home grounds, probably will be postponed after today's game.

The closing of some of the big summer parks in the outlying districts was regarded as certain.

Europe now has six great laboratories in as many nations devoted to the investigation of aviation problems.

SAGE TEA BEST WAY TO
TURN GRAY HAIR DARK

Combined With Sulphur Makes
Good Old-Fashioned Treatment.

A good old-fashioned remedy for darkening gray hair is a compound of Sage Tea and Sulphur. Many try to make this at home, but it is better to buy a bottle of the compound ready mixed by asking the druggist for Sulpho Sage. It costs only 50c. This is a dainty toilet preparation based on the old-fashioned Sage Tea and Sulphur formula with other helpful ingredients added. It is in no sense a dye, but merely causes nature to bring back each gray hair to a rich dark shade similar to what it was before turning. The color is restored so evenly that no one knows you are using anything. New gray hairs are kept from showing. Sulpho-Sage removes dandruff too and gives your hair a glossy lustre and beauty that will make you look ten years younger. If you are gray, don't experiment with stains or powerful chemical preparations, but get the good old-fashioned Sulpho-Sage today from W. A. Birman. He recommends it to Newark ladies, and will refund full price to any dissatisfied purchasers.

BLOOD WILL TELL

Paris, June 14.—Many young men have been lost in France by the fact that their blood was out of order and impure when they started out in this campaign as soldiers at the front. Many of them never reached the battle line because they were taken sick in camp, due to stomach and bowel troubles, and with blood powerless to resist. Young men and old men in America should be just as watchful of their blood to see that it is pure, that their stomach is acting well and the liver active.

It takes lots of vitality, nervous force and strength to win a race. Blood must be pure and good.

Keep the nerves nourished, the heart strong, the head cool, the stomach vigorous, the liver active with a tonic which has stood the test of time and has a wide reputation, such as Doctor Pierce's Golden Medical Discovery. It is the world's great Blood Purifier. It enters joints, dissolves the impure deposits and carries them out, as it does all impurities, through the Liver, Bowels, Kidneys and Skin.

If you have indigestion, sluggish liver, backache over the kidneys, nasal Catarrh, instead of nerves or unsightly skin, get Dr. Pierce's Golden Medical Discovery today and start at once to replace your impure blood with the kind that puts energy and ambition into you and brings back youth and vigorous action.—Adv.

4-YEAR-OLD LAD
WAS DROWNED IN
LAKE, SATURDAY

Carl Lester Schuber, 4-year-old son of Mr. and Mrs. Walter O. Schuber, 34 Dana Avenue, Columbus, was drowned Saturday evening at Stony Point, Buckeye Lake. Two miles west of Buckeye Lake Park, when he fell into eight feet of water. The lad was playing in front of his parents' cottage, Seabright, when he tumbled over the embankment. He was in the water 15 minutes when found dead by his uncle, Fred Schuber, and J. D. Aispaugh, chief engineer at the State Hospital in Columbus. Dr. Neeland of Hebron spent two hours in a vain attempt to restore life.

Several appointments are yet to be made. This is the first staff of inspectors to work under the new law, enacted as an emergency measure by the last assembly, to reduce the inspection rate from 7 to 3 cents a barrel. The supreme court had declared unconstitutional the former law with the higher rate on the ground that the fee constituted a tax rather than a mere operative assessment, since thousands of dollars were turned into the general revenue fund of the state by the oil inspection department.

The governor's office today honored a requisition from the governor of Tennessee for the return of Louis Centre, alias Lee, under arrest in Cleveland, wanted in Knox county, Tennessee, on a charge of mistreating a young girl.

The sum of \$9,848 is due the city of Akron from Summit county for special elections held during the past five years for which the city paid illegally, according to a report of the state bureau of accounting made public today.

Having failed in efforts to bring the case to the supreme court by mandates on the circuit court, the Toledo Railway and Light Company today filed a motion in the supreme court for certification of the records by the circuit court in the damage suit of George E. Myers, to whom lower courts gave a verdict.

BACK FROM AUTO TRIP.

Mr. and Mrs. Dick Curry and Mr. and Mrs. Frank Brown have returned from an auto trip to Cincinnati, Lexington and Louisville. They started with Knoxville, Tenn., as their objective point but were forced to abandon their schedule through Kentucky and Eastern Tennessee on account of the bad roads, it having rained continuously in Central Kentucky for twenty-seven consecutive days, making the mud roads impassable. The party stopped at Cincinnati and enjoyed a ball game and also the races at Latonia.

TO DISCUSS THE
PREVENTION OF
TUBERCULOSIS

MEETING OF THE NATIONAL AS-
SOCIATION WILL BE OPEN IN
SEATTLE TUESDAY

Prominent Speakers Will Give the
Latest Developments in Cam-
paign Against Consumption.

(Associated Press Correspondence.)
Seattle, June 13.—Subjects of the latest significance in the treatment and prevention of tuberculosis will be discussed during the next three days at the Eleventh Annual Meeting of The National Association for the Study and Prevention of Tuberculosis, which meets in this city tomorrow. Among the principal topics of discussion will be immunity against tuberculosis, vaccination to prevent the disease, artificial pneumothorax as a method of treatment, housing in its relation to the tuberculosis problem, and methods of preventative work for anti-tuberculosis organizations.

The subject of immunity will be discussed by a number of speakers in the Clinical and Pathological Sections, particularly on Tuesday night, by Dr. Enrico Castelli of New York who will present the results of experimental work carried on by the Faculty of Medicine of Genoa, Italy, in an endeavor to render children and adults immune against attacks of tuberculosis. The Wednesday morning session and Clinical Section will be devoted entirely to the discussion of artificial pneumothorax or the compression of the lung by the injection of nitrogen gas in the pleural cavity as an aid in the treatment of tuberculosis. This method of treatment has been in vogue for several years, and the results of numerous experiments will be summarized. Before the Sociological Section, important papers on the relations of bad housing to infection from tuberculosis and what steps can be taken to prevent unsanitary conditions will be discussed.

Between 300 and 500 delegates and members from all parts of the United States are to be in attendance at the meeting. The first regular session will be held tomorrow night at which time the subject of "Child Welfare in Its Relation to Tuberculosis" will be discussed.

The Courts

Common Pleas Court.
In the case of the Adams Express Company vs. Frank J. Harrington, a suit growing out of the shipment of several automobile tires, the court overruled a demurrer to the petition and leave was given to answer in 15 days.

Malissa Par v. John M. Stevens, a suit in foreclosure; decree for \$788.25 and interest and order of sale.

Malinda Bishop vs. Solomon Criss, judgment of dismissal.

To Pay Sheep Claims.
County Auditor Jess Hursley is now prepared to pay the sheep claims which were allowed by the county commissioners at their last quarterly meeting.

Marriage Licenses.
Thomas M. Loker, laborer, and Miss Sylvia E. Edington, both of this city.
Robert F. McCann, head of order department at the Dayton Metal Product Co., and Miss Helen J. Beard, Rev. L. P. Franklin to officiate.

Ask \$2,500 Damages.

James and Frank Burns have brought a damage case in common pleas court against the county commissioners, asking the sum of \$2,500 for the alleged lowering of a grade along land owned by the plaintiffs on the Jacksonville pike a short distance south of this city. The petition alleges that when the pike was built several years ago, the defendants lowered the grade of the road along their land twenty feet in front of and adjacent to said land and that the value of their property has been greatly diminished. The petition further says that the alteration was made without notice to them, without their consent and without compensation. The plaintiffs claim damages in the sum of \$2,500.

COUNCILMEN
INSPECT NEW
CITY HOSPITAL

Members of the Newark city council visited the new city hospital Sunday afternoon by invitation of the board of trustees and inspected the new building and its equipment. After a splendid lunch was served, President Edward Kibler called upon William L. Pratt to give a short report of the development of the hospital and the creation of the building fund. Dr. U. K. Essington then gave a very interesting report of a recent surgical clinic at which forty doctors, many from surrounding counties were present to witness six unusually important and successful surgical operations performed by a prominent Chicago surgeon, Dr. Percy and his assistant.

The members of the council present were Dr. C. B. Keller, J. R. Ashbrook, W. C. Seward, G. A. Payne, H. L. Rexwith, T. D. Keys and Thomas Adams, Clerk. J. W. Woodward and Engineer Charles Wells were also present.

IT IS SERIOUS

Some Newark People Fail to Realize
the Seriousness of a Bad Back.

The constant aching of a bad back, the weariness, the tired feeling, the pains and aches of kidney ills. May result seriously if neglected. Dangerous urinary troubles often follow.

A Newark citizen shows you what to do.

Mrs. Helen A. Deenis, 50 German street, Newark, says: "Doan's Kidney Pills have been a life-saver to me. Several doctors gave me medicine for kidney trouble, but didn't help me and I was discouraged. I suffered dreadfully from pains across my back and I had rheumatic twinges in my limbs. My feet and hands became swollen. I had dizzy spells and it was hard for me to keep on my feet. The kidney secretions were unnatural. Doan's Kidney Pills proved beneficial as soon as I began taking them. My back grew stronger and my kidneys became normal. Two boxes of Doan's Kidney Pills permanently cured me and I am now in good health."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Deenis had. Foster-Milburn Co., Props., Buffalo, N. Y.

BEES' STINGS

RESULT SERIOUSLY FOR YOUNG
MAN WHO TRIED TO PUT
THEM IN RIVE

Angry Insects Swarmed Over His Body
Stinging Him Probably a Thousand Times.

Paul Edwards, aged about twenty-one years, Sunday while endeavoring to give a swarm of bees at his parents' home on the Wilkin Run road, was so severely stung by the bees that it was necessary to secure the services of two physicians, Drs. C. F. Legge and J. R. McClure to care for him.

The young man is attending O. S. U. at Columbus and is president of the Junior Agricultural class. He was visiting his parents over Sunday and finding the bees decided to attempt to give them. It was necessary to handle them quickly and the bees resenting the method employed began swarming over the young man, crawling inside his clothing and all over his face and body. The physicians state that he was probably stung at least a thousand times and the young man was badly shocked from the pain.

The physicians administered antidotes and it is thought that no serious complications will follow and there is but little danger of blood poisoning. Mr. Edwards' eyes were nearly swollen shut and his face was one mass of swelling from the stings. Today he is reported as resting very comfortably and it is thought that he will soon recover from his harrowing experience.

"PETE" HEIL IS
ON A VACATION

"Pete" Heil, Associated Press operator in The Advocate office started on a two weeks' vacation Saturday. His associates in the office, knowing his warlike nature, and remembering the momentous events of last week, including the president's note to Germany, Bryan's resignation, the crisis in Mexico, following closely upon Przemysla's capture by the Teutonic allies, are somewhat anxious concerning his probable course of action. The war fever may have taken hold of "Pete," and if this is true, it is beyond the pale of probability that he will return to the humdrum life of press telegraph operator. It is only a question into which arena of conflict their belligerently inclined friend will hurl himself.

However, his position will be held open for the two weeks, and will be filled during that time by John M. Welsh, a regular A. P. substitute.

SUNDAY

(Continued from Page 1.)

eight hundred spectators were alarmed by the appearance of the storm which came up quickly. Ball players in the field who watched the progress of the clouds declared that they had the appearance of a cyclone, but the storm lifted as it approached the park and the only discomfort suffered was from the rain which at times blew into the grandstands where most of the spectators took refuge.

The wind blew a heavy limb off a big tree at the corner of First and East Main streets, and it struck the roof of the house owned and occupied by Mrs. Mary E. Barker. The limb went through the slate roof, and dislodged the plastering in one of the upstairs rooms.

RAIN DIDN'T STOP AKRON CLUB; WON SUNDAY, SCORE 7-3

In a game which was played most of the time while rain was falling, Akron defeated Newark Sunday afternoon by a score of 7 to 3. Several things conspired to delay the game at one time or another. Catcher Talbot failed to appear at the ball park at 3 o'clock and the game was held up a few minutes in hope that he would reach the park but he did not.

Then Manager Al Newnam caused a further delay when he instructed Tom Plummer, temporarily in charge of the team in the field, to keep his players on the bench until a financial settlement was made between the Newark and Akron clubs. This matter finally being arranged to the satisfaction of the visitors the game was started about 3:25 o'clock, nearly a half hour late.

Glennon, who has been playing infield and outfield positions for Newnam, took Talbot's place behind the bat and Linne and Hook two pitchers were sent into fill up the holes. Hook played short and Linne played center field.

The game went along nicely until the fifth inning when a storm came up suddenly from the west and for a few minutes it was so dark that it was almost impossible to see the ball. Then the rain started. One inning was played in the rain when time was called.

After the start was made again, a half hour later, a couple more innings were played when the rain started again and the game was called off for good.

Errors by Carpenter, Deitrick and Humphreys in the first inning with hits by Patton and Mundy, and a hit by Mundy, gave Akron two runs.

In the fourth a pass to Linne, Holler's sacrifice, McKee's and Plummer's singles gave the visitors another. A pass to Glennon in the sixth, Linne's hit, Holler's sacrifice, McKee's single and Plummer's pass, with Pearce's passed ball, gave the Rubbernecks two more. The final inning saw two counters when Jaekel got a life on Deitrick's error, was forced at second by Hook, Glennon's single, a pass to Linne and singles by Holler and McKee. Plummer ended the inning with a ground ball to Malloy.

Newark scored in the third when Long got a life on Patton's misplay. Wratten was out on a fly to Jaekel, Humphreys was hit by a pitched ball, Deitrick was out, McKee to Mundy, and Holler fumbled Strawn's grounder, allowing Long to score. Blanchard ended the session with a grounder to Mundy.

In the seventh, Long was hit by McKee. Wratten struck out. Humphreys forced Long at second. Deitrick singled, sending Humphreys to third. Pearce's grounder was lost by Hook and Strawn drove the ball to deep left for two sacks, scoring Pearce. Blanchard grounded out to Holler.

Announcement was made just before the game was ended, that Lima would play two games at Wehrle Park next Sunday.

RALLY IN 7TH SALTED GAME FOR MR. DRAKE

In a game which was featured by a batting rally in the seventh inning by Wratten's Newark gang, the Newark team defeated Akron Saturday by a score of 10 to 5. In the fatal seventh, Newark registered seven safe hits, drew two complimentary passes to first and scored seven runs. It was one of the few innings in which any ball player in a Newark uniform ever got two hits in the same inning. Drake and Malloy both turned this trick. Each faced Pitcher Hook twice in the seventh and each hit safely twice. Both scored after their first hits.

The game was unusually clean. It was the first this season that the Newark club has played without a single error. The visitors had but one that credited to Glennon on a throw of Pearce's ground ball in the second inning, which drew Mundy off the bag.

The game was somewhat of a seesaw affair. Newark scored two in the second, Akron tied the score with two in the fifth. Newark took the lead with one run in the last half of the fifth and then Akron scored 2 in the seventh again forging ahead. Newark came back strong in the seventh with seven tallies and placed the game on ice.

Geiger a monster right hander from Jersey, this county, started the game on the mound for Newark. He worked splendidly until the fifth inning and with two men retired, he suddenly lost control, passed four men and allowed one hit which scored Akron's first two runs.

Drake who relieved him was also wild but managed to get away with the game when it was salted safely with the seven tallies in the middle of the game.

The Akron boys got the long hits, five two sackers being to the credit of the Newnam gang. All of Newark's bingles were of the one base variety.

Kids were admitted free to the game and there was a large assemblage of the young fans. Supt. Orr, of the county children's home brought thirteen of his wards to the game. They enjoyed the outing immensely.

FORMER NEWARK MAN CONTRACTS FOR 600 AEROPLANES FOR WAR

Russell H. Shaw, of the Shaw Aeroplane company of Indianapolis, but formerly of Newark, is meeting with success in the manufacture of aeroplanes. Mr. Shaw has just returned from New York where he has closed a contract with one of the European countries to supply six hundred aeroplanes for use in the war.

He manufactures two types of machines for war use and is able to build a machine a day. Mr. Shaw stated that he expected to land other contracts.

While in Newark Mr. Shaw resided with his parents in High street.

DENISON LOSES TO WESLEYAN IN SATURDAY GAME

Granville, June 14.—Hill of Wesleyan proved to be a mountain against Denison batters Saturday afternoon. Five hits for one run were all he would permit. Timely hitting by Knapp, Harris and Pride of Wesleyan aided largely in accumulating seven scores to Denison's one. An error and a double by Reese gave Denison its lone score. Cardwell of Wesleyan pitched a line drive out of the air over short, creating the fielding.

FREE FIELD DAY AT TOLEDO, O.; NEWARK INVITED

Newark amateurs of all classes are invited to participate in a great Municipal Field Day to be held in Toledo on Monday, July 5th. Special events have been provided for high school and college athletes, and for industrial workers and employees of stores and offices.

The Field Day is the first of its kind to be held in America, and is backed by the Toledo Commerce club, Y. M. C. A. and representatives of the city administration, labor leaders, business men and manufacturers.

Gold, silver and bronze medals have been provided for every event, and a score of handsome loving cups have been donated as tokens.

Invitations have been issued to 166 high schools, 23 colleges and 25 Y. M. C. A.'s in Indiana, Ohio, Southern Michigan and parts of Pennsylvania, to take part in the Sports Carnival.

No entrance fee will be charged for any event. The only qualification requirement is that contestants shall be eligible under the rules governing amateur standing.

The athletic program will be divided into three parts, inter-scholastic, local and open event. For the high schools there will be 100-yard dash, one-quarter mile and 880-yard runs and a mile relay for four-men teams.

NEWARK CLUB IS OFF ON A WEEK'S TRIP ON THE ROAD

The Newark club left Sunday night at 9 o'clock, via the B. and O. for Akron, accompanying the Akron boys back to their own barnyard. Games are scheduled with Akron Monday and Tuesday.

League officials today reiterated that the circuit will stand and again assert that it is stronger than it was with Canton and Marion as members.

Announcement was made at Wehrle Park Sunday afternoon that Lima would play two games here next Sunday afternoon.

THREE GAMES IN AKRON AND FINDLAY: LIMA HERE SUNDAY

Changes in the schedule place the Newark club on the program for three games at Akron, the next three days of this week. Thursday Friday and Saturday. Wratten's boys are due to play in Findlay. Sunday the team comes to Newark for two games with Lima. With the Lima club will be Murray and Schweitzer, both well known to Newark fans. Matthews, and old Denison athlete is with the Lima club and is playing good baseball.

Littick to Coach Kentucky School; All-Around Athlete

Delaware, June 14.—D. P. Littick, who graduated from Ohio Wesleyan, was appointed athletic director of Central University at Danville, Ky. He will take charge of his work in the fall. While at Ohio Wesleyan Littick was a member of the football, baseball, basketball and track teams. He was regarded as one of the best all-around athletes ever developed in the Methodist school.

RIDAPILE CONES

Four electric automobiles, stock cars of Columbus dealers, made a trip from Columbus to Newark Sunday in one hour and fifty minutes, thus demonstrating that the charges that electrica were for town use only, is unfounded. The trip was made without difficulty and the cars, after spending the afternoon at the Spillman garage, left at 3:30 o'clock for the return trip.

The cars making the trip were the Baker, the Detroit, the Waverly and the Ranch and Lang. The agents in Columbus are Michael Abel, F. E. Avery & Son, Brasher Motor Car Co. and Frank J. Biele, respectively.

Wolverton Hurt In Auto Accident In San Francisco

Mt. Vernon, O., June 14.—Harry "Stire" Wolverton, former Mt. Vernon man, who is managing the San Francisco team of the Pacific Coast Baseball league, was severely injured in an automobile accident at San Francisco Friday.

AN ALLEGED POOL PROMOTER ARRESTED

Ivor Wagner, former Newark baseball player and well known to local fans, was arrested at Neil park, Columbus, Saturday on a charge of being promoter of a baseball pool.

Harons, which average only four pounds in weight, often have been known to eat more than three pounds of fish at a meal.

B. & O. VETERANS TO HAVE OUTING IN NEAR FUTURE

The B. and O. Veterans are arranging for an outing at Buckeye Lake in the near future and a committee consisting of John Gorbey, John Dille, E. E. Moore and Dave Murphy, will meet in the latter's office in the Hibbert & Schaus building this evening at 7 o'clock to prepare a program and look after all the necessary details.

It is proposed to hold the outing at Bruno and the old B. and O. boys expect to have the time of their lives. They will go down to Bruno on a special and they will spend the day in fishing, eating and in all kinds of games. A big feed will also be one of the features and the B. and O. veterans always do things right so that it can be assured that the "cats" will be in keeping with former events of a like nature.

The date will be selected this evening and invitations will be issued later. Any person receiving one and not attending will miss the time of their life. Dave Murphy and John Woolson are selecting ball teams and they promise to give an exhibition game that will outlive any amateur event seen in a long time. The program will be announced later.

TWO NEW PITCHERS AGREE TO REPORT TO CLUB AT AKRON

Walter Blubaugh, a pitcher of Lebanon, Ind., has accepted terms with the Newark club and left Lebanon today for Akron, joining the club there Tuesday morning. Joe Orendorf a Pittsburg pitcher has also accepted terms and will report Tuesday to Captain Wratten at Akron.

The management is negotiating with Pitcher Hendrickson of the Ohio University team at Athens and it is believed that the collegian will sign. He hasn't lost a game this season. He shut out Muskingum college Saturday with one hit in 9 innings, the game was forfeited to Muskingum, 9 to 0 because of a dispute with the umpire. An effort is being made to get a shortstop for the club and it is probable that one will be secured before the club returns. Goodwin and Geiger have been released.

Geiger hadn't pitched enough this season to be in condition and the club couldn't afford to carry him until he was in condition.

BOOSTER TICKETS WILL BE OFFERED TO HELP FINANCES

Booster tickets will be placed on sale probably Tuesday and fans will be asked to help the club finances by purchasing the tickets. They will be offered at \$1 each and will be good for two games at Wehrle Park next Sunday, or any other game during the season. The management, in making the announcement, called attention to the fact that the weather since the opening of the season had been the cause of the financial difficulties and asked that the booster ticket be purchased liberally to help the treasury. The free list on that day will be entirely suspended and the regular price of admission 25 cents at the gate and 15 cents at the grand stand will prevail.

Flag Day.

One hundred and thirty-eight years ago today the American flag was adopted by congress. The flag that was adopted on that day had been made at the suggestion of George Washington by Mrs. Elizabeth Ross (Betsy Griscom) at No. 229 Arch street, Philadelphia.

The celebration of Flag Day soon became popular and was before long a part of the program of many patriotic societies. For many years it has been universally observed by the public schools of this country, the custom of observing Flag Day having been originated in 1889 by Prof. Geo. Bolch of New York.

Whether we date from the first common flag of the thirteen original colonies, first unfurled over Washington's headquarters at Cambridge, Mass., January 2, 1776, or the Stars and Stripes adopted by an act of Congress June 14, 1777, the flag of the United States can justly claim to be the oldest among the ensigns of the nations of the world.

It antedates England's royal standard, established in 1501; the flag of Spain, adopted in 1785; the French tricolor, decreed in 1794; the existing flag of Portugal, selected in 1820; the flag of the Empire of Germany, which represents the sovereignty of fourteen distinct flags and states, established in 1840; the Italian tricolor, dating from 1848; the Swedish-Norwegian ensign, the recent flags of the old empires of China and Japan, and the colors of all the South American States, which have been modified generally from our "Star Spangled Banner."

The Stars and Stripes are to be seen in every part of Newark today. While no special program marked the event, there was a more general display of the flag than in past years, due it is thought, to the recent international developments.

Colleges and Wealth.

A professor in a widely known college was saying a few days ago, in speaking of the year's work now about to close, that the one thing that troubled him was the growing prominence of rich men's sons in his institution. The college which he represents has never had the reputation of being a rich man's college. It started with struggle and hardship and effort.

The desire manifested by rich men to have their sons acquire liberal culture is highly creditable. These young men will be enormously improved. Instead of going out into life, lordly and arrogant young Croesuses, most of them will have a lot of nonsense taken out of them. They will have learned that wealth

without virtue or public spirit has ruined many a state in the past.

What bothered the professor was not the presence of wealthy young men, but the fact that they seemed to find it impossible to maintain the old simple standards of living. They must have lavish fraternity houses, with oriental rugs, mahogany furniture, high priced cooks, and all the machinery of elaborate living.

There are a lot of colleges today where a young man has got to be economical to get through on less than \$800 to \$1000 a year. The cost is not in tuition or board, but in fraternity bills and social and athletic expenses. The rich students, too, it is necessary to run all their organizations and enterprises on a scale of elaborate expenditure. The poor man's son is made to feel an outcast if he does not chip in.

College spirit is democratic, and the poor boy is rarely dropped intentionally. He is simply ignored. He can't play the game. If he is a winner in athletics, or if he makes a high mark in scholarship, he will be taken care of. If he is just an ordinary boy, he is lost in the shuffle. This is not the spirit in which the colleges were founded, and through which they have exercised their profound influence on American life.

Clews Praises Wilson.

Henry Clews, the New York banker whose weekly letters are widely published, refers in his most recent communication to the President in complimentary terms. Mr. Clews says in part:

"It is to be hoped that Mr. Bryan will not embarrass the Administration by antagonizing the policy of Mr. Wilson, who has the support of every patriotic and high-minded American. It is inconceivable that Mr. Bryan would intentionally attempt to divide the nation at such a critical period. As President of the American Peace and Arbitration League, of which President Wilson is honorary President, my opinion is that the only unfortunate feature of the resignation of Mr. Bryan as Secretary of State is that it occurred at this critical juncture, since it will likely give the impression abroad that our people are divided on the President's policy, especially in the present dispute with Germany. Beyond that no serious consequences can come from it."

I am sure the President is as much an advocate of maintaining peace with all foreign nations as Mr. Bryan is, but he naturally wants it with honor and not at any price, as do also the American people. The President's latest message to Germany is admirable in temper and unquestionable in purpose. It puts the American cause upon a high plane and will command unqualified support."

Mr. Bryan's Statement.

(Philadelphia Record, Dem.)
Now that Mr. Bryan no longer holds public office it is unnecessary to treat his views with that importance which would attach to those of a Secretary of State, but his indiscretion, to put it mildly, in the statement published by him concurrently with the note addressed to the German Government is so glaring that it cannot be altogether ignored. So extraordinary is this production, especially coming from a man who has long been a party leader, a candidate for President and the occupant of a high post of honor of responsibility, that it is difficult to treat it with restraint. Coming at a time when his Government faces a serious crisis and it is the duty of every good citizen to support the President loyally, it must be pronounced one of the most remarkable displays of wretched judgment, worse taste, ignorance, cant and vainglorious emotionalism that has ever appeared in American politics. It throws such a strong light on the curious mental processes of the ex-Secretary that every one must feel relieved that such a poorly balanced mind no longer has any part in shaping the destinies of the country.

It is unnecessary to discuss the points made in Mr. Bryan's statement. If they required an answer, which they do not, the best reply would be found in the courteous but firm note addressed by Acting Secretary Lansing to the German Government. There is no intimation of war in this and nothing that could in any degree justify Mr. Bryan's ill-timed reference to Austria-Hungary's haughty and even insolent ultimatum to Serbia. To be sure there is none of that sloopy bush about love in it which is so sickening in the ex-Secretary's screed, but there is a lofty sense of humanity and devotion to exact justice which makes it a notable diplomatic document. Most men would consider it a great honor to be able to append their signature to such a distinguished and historic paper. That Mr. Bryan should demur to such a course seems astonishing and adds to the mystery of his conduct during the past week.

A contemporary refers to the ex-Secretary as "Bryan the Marplot." Probably he would be one if he retained public office. Happily for the best interests of the country he is now deprived of all opportunity for serious harm. His absurd statements will react and only on himself. He remains an enigma in politics, and the Ship of State will sail on serenely without him.

Miracles.

(Collier's Weekly for June 19.)
The Gasoline engine, which made possible the flying machine and the automobile, has arisen and come to perfection within the lifetime of men who are still in college. Will there be any wonders equal to this for the generation who are babies now to see? One day last month, in Indianapolis, a young man moved upon the earth at the rate of ninety miles an hour for several hours. Barring an occasional stretch of a few minutes on a few miles of railroad, this is the fastest motion of a human being on the surface of the earth. For "time measured in hours, this generalization is certainly true. Compared to what this modest young American did, the chariot races of Rome were the awkward playing of babies. Ralph De Palma's official record on the Mercedes car was 200 miles in 5 hours 33 minutes and 55.2 seconds, the average speed being 39.84 miles an hour. The minute mechanical perfection that has been achieved by the automobile makers during the past few years is suggested by the fact that only four years ago, in 1911, the record was 74.79 miles an hour. In the race this year the tenth car beat the fastest car of 1911. Among these ten cars six were American built. The young man who did this unprecedented thing at Indianapolis is Italian born. He came to America when he was six years old, never drinks alcohol, never smokes, and leads a life of clean restraint which makes his nerves and muscles possible. Compared to him, the fat Neros who used to plow around the coliseum were pikers.

Standing By Wilson.

New York, June 14.—A purpose to stand by President Wilson in whatever course he may deem necessary in the complications with Germany, coupled with the hope and belief that he will be able to bring about an adjustment with Germany by peaceful means, are the conspicuous features in a communication addressed to President Wilson by the American League to Limit Armaments. This communication consists of a brief introduction by Secretary Wood, followed by extracts from letters written to the league by fifty-eight of the 146 college presidents who are members of the league.

Don't worry about the job you don't like. The probabilities are you won't have it long.

If a man has time to listen to it, a woman can always give a plausible excuse for tardiness in keeping an appointment.

In a small town the fact that a woman is on the stage is, in itself, regarded as a suspicious circumstance.

Spirit of the Press

Tribute to Wilson.

The fact that another of President Wilson's friendly and conciliatory notes is soon to be despatched to London is giving the official gentlemen in that capital who have been disregarding international law almost as much concern as a prospective visit by one of Count Zeppelin's contrivances. In all this welter of blood and bluster, it is a great thing for civilization that one nation is wise enough and courageous enough to adhere to an idea. Long after every issue now at stake on the fields of Europe shall have been forgotten, the principle and the purpose of the American notes will be remembered cherished and embodied in the law of nations.—New York World.

An 'All-Electric' Village.

It has remained for the State of Ohio to produce an all-electric village—or, to speak more exactly, suburb, for the case in point is an adjunct of Toledo, known as Wildwood. Persons who have gained the impression that the United States is becoming thickly settled and that pioneering possibilities, so ended, may be surprised to learn that there yet remain in the United States upward of 300,000,000 acres of vacant public lands, to say nothing of an even greater unoccupied area in Alaska, where the government is planning a \$35,000,000 railway, 1,000 miles in length, which will do for the big peninsula what the transcontinental railroads have done for our own West.—Christian Herald.

"Go Ahead and Bombard."

Several years ago, Philippe Millet, a famous French correspondent, came to this country to represent Le Temps, of Paris, and while here interviewed William J. Bryan, who spoke at length on his plans for world peace. In the course of the conversation Millet asked: "What would you do, Mr. Bryan, if a German fleet sailed up New York harbor and threatened to bombard the city?"

Bryan replied: "I should say to the German admiral 'Go ahead and bombard, but remember that we shall collect damages.'"—Boston Herald.

SUPPORT THE MAN WHO UPHOLDS THE RIGHTS OF THE HUMBLEST!

The government of the United States is contending for something much greater than mere rights of property or privileges of commerce. It is contending for nothing less high and sacred than the rights of humanity, which every government honors itself in respecting, and which no government is justified in resigning on behalf of those under its care and authority.—President Wilson's rejoinder to Germany.

FRA ELBERTUS.

Down to the depths went Elbert Hubbard, with smiling eyes knew no fear, and all the lovely mermaids rubbed and, Neptune shouted, "See who's here!" Well might there be a great commotion throughout the sea, from east to west, for seldom has old Father Ocean clasped hands with such a splendid guest.

The kinsman waits upon his table, his pen is rusting in the sun; there is no living hand that's able to do the work he left undone. There is no brain so keen and witty, no voice with his caressing tones; and Elbert, in the Dead Men's City, is swapping yarns with Davy Jones. And all the world that reads evinces its sorrow that he's dwelling there; not all the warring kings and princes are worth a ringlet of his hair. Death keeps a record in his cupboard of victims of the monarchs' hate; "a million men and Elbert Hubbard," so goes the tally, up to date. If it would bring you back, Elbertus, to twang your harp with golden strings, it would not worry us or hurt us to drown a wagonload of kings.

Advice.

When things ain't going right with you, and you can't make them gee; when business matters look real bime, and you fear bankruptcy; when cobwebs gather on your stock, and customers are rare; when all your assets are in lock, don't cuss and tear your hair. Just listen to this good advice and take it if you're wise: Give every article a price and then go advertise, and advertise from morn to night; don't overlook a day, and soon you'll see the world go bright, and things will come your way. Invest in good publicity, and fortune you will greet, and in a little while you'll be 'way up on Easy street.

Some people are so lucky that they will not embrace an opportunity until they have traced the pedigree of the opportunity and found out if it has been embraced before.

A reader wants to know the difference between an apartment and a flat. Why, about \$25 a month. Ask us something hard.

Mother will go to the ten cent store and get a ten cent hammer, a ten cent saw, a ten cent chisel and a five cent screwdriver, and then she will get mad because father can't do a job of mending for which the carpenter wanted to charge her \$450.

Other people often strike you as being cranky, don't they? Well, that is just what they are thinking about you.

When the bride sits down and sighs and wonders if she might not have done better the honeymoon beats it into the bathroom and begins frisking the shelves for the carbolic acid.

The less a woman's photograph resembles her the more she likes it.

FRATERNAL

ORGANIZATIONS OBSERVED AN
MEMORIAL AT CEDAR HILL
ON SUNDAY

Hon. W. A. Hite of Thornville, Gave
Splendid Address—a Large At-
tendance Was Present.

Sunday was celebrated as the
United memorial day for a number
of the fraternal organizations of the
city. Great throngs formed in the
lines and marched to Cedar Hill cem-
etery where deceased members were
honored with flowers, and where an
address befitting the occasion was de-
livered.

The following organizations partic-
ipated in the services: The Mac-
cabees, Improved Order of Red Men,
The Modern Woodmen, Ben Hur,
The American Insurance Union,
Knights and Ladies of Security, The
Yeomen and The Home Guards of
America.

The parade formed on the south
side of the square in charge of
Grand Marshal W. H. Wilkins and
there were carriages for the speak-
ers and committees. The Buckeye
band furnished the music and the
members of the societies for the women
fell into the ranks at the cem-
etery.

At the cemetery the graves of the
deceased members were decorated
with flowers and the audience sang
"America." Rev. Grover H. Diehl,
pastor of the Plymouth Congrega-
tional church delivered the invocation,
and Hon. W. A. Hite of Thornville,
a member of the Ohio legisla-
ture gave the Memorial address. The
assembled throng sang "Nearer My
God to Thee" and the benediction
was pronounced.

The services were largely attend-
ed, many hundreds of people being
present at the cemetery.

The members of the Phototean
club held the annual club picnic
on Saturday afternoon at Black Hand.
The members took the one o'clock
car, and a picnic luncheon was served
from the baskets and in the early
twilight a marshmallow roast was
held.

On Friday evening Mr. and Mrs.
Harold May entertained a few friends,
members of the Plymouth Congrega-
tional church at their home in Eighth
street. The evening was spent with
music and games and refreshments
were served the following: Misses
Maude Wise, Alice Yates, Margaret
Lohrbaugh, Messrs. Clarence Boner,
Earl Murphy, Wilbur Gault and Harry
Bailey.

The young women members of Miss
Mary Miller's Sunday school class of
the Second Presbyterian church, en-
joyed a picnic at Black Hand Sat-
urday, spending a very pleasant day.

Miss Helen Beard, whose marriage
takes place this month, and Miss
Ruby Hoyt, of Cleveland, the guest
of Miss Marian Veint, were the
honor guests at a bridge luncheon
given on Saturday afternoon by Miss
Veint at her suburban home. The
luncheon table was prettily arranged,

and bud vases at the places held the
favor, a Killarney rose.

In the bridge game the souvenir
was awarded to Mrs. Russell Kimmel
of Dayton, who is the guest of Miss
Beard. Miss Veint's guests num-
bered thirty-five.

The Masonic Social club will enter-
tain with a dancing party on Thurs-
day evening at the Buckeye Lake
Yacht Club. The car will leave for
the lake at 7 o'clock.

MR. REES RESIGNS TO
JOIN THE DOLLINGS CO.
AS DISTRICT AGENT

L. Tenney Rees, for eight years a
teller with the Newark Trust com-
pany and who has been auditor of
the bank tendered his resignation
Saturday night effective at once and
has been named by the R. L. Doll-
ings Co. as district agent.

TENNEY REESE.

ings Co., dealers in bonds and invest-
ment securities, to have charge of a
new district in the eastern part of
the state. The new territory will
consist of six counties and Mr. Rees
will have charge of the corps of
agents in the district headquarters of
which will be in Steubenville. He is
in Hamilton today conferring with
the officials of the Dollings company.

Mr. Rees is popular among the
Newark business men and has ad-
vanced steadily in the financial busi-
ness which he entered here. It is
probable that he will move his fam-
ily to his new location soon.

The Dollings company, a \$600,000
Ohio corporation, has a branch of-
fice in Newark. The local office is
in charge of A. R. Evans, formerly
with the Licking County Bank and
Trust company while the Licking
district comprising several counties
is under the direction of J. W. Hohl.
Both Mr. Evans and Mr. Hohl are
"making good." Both were awarded
prizes at the recent meeting of the
Dollings sales organization, Mr. Hohl
having led every district in Ohio in
the volume of sales. The Dollings
company is headed by Colonel R. L.
Dollings, who was formerly a news-
paper man in Zanesville. The Doll-
ings organization is made up of over
100 high class men.

LARGEST

CLASS IN HISTORY OF ST. FRAN-
CIS DE SALES HIGH SCHOOL
WAS GRADUATED

Address Was Delivered by Rev. Fr.
Charles Watterson—Nineteen
Complete the Course.

The largest class that was ever
graduated from the St. Francis de
Sales high school, was the class of
1915, the members of which received
their diplomas in St. Francis de
Sales church on Sunday evening. The
class numbered nineteen.

The services attendant upon the
graduation were unusually impres-
sive, and the church was filled with
the relatives and friends of the
graduates. The three altars were
banked with clusters of pink roses
and carnations embedded in rich
follage and myriads of tiny red oil
lights intermingled with the glow of
many candles.

Fifteen young men and women
were graduated from the commercial
department: Misses Mary Prior, Eva
Winters, Mercedes Ginter, Margaret
Bradley, Mary Gilmore, Grace Stasel,
Helen Talbot, Anna Callan and Nel-
lie Gorman. Messrs. Ernest Lieber
John McCabe, Charles Greely, Joseph
Homer, Edward Schimpf, Raymond
Maybold.

Four were graduated from the reg-
ular high school course: Charles Gil-
bert, John Callahan, Andrew Calla-
han, and Miss Meriam Fitzpatrick.

To this class of nineteen, about to
leave their school world to venture
for conquest in a larger world, Rev.
Father Charles H. A. Watterson, de-
livered the graduation address, and
it was a masterful presentation of
facts which were to dominate their
lives for the future years. Rev.
Father Watterson, in his talk, defin-
ed three features which were to be
safe guards for them in the life to
come. He first dwelt upon the feasi-
bility of seizing opportunities; how
success depended upon the ability to
adapt oneself, and not to permit the
real things of life to trail along un-
noticed. The speaker next told of
the necessity of obedience, how every
one should learn to submit and to
humble aims and desires. The third
rule which should guide life, should
be fidelity to duty. Father Watter-
son concluded, "If you will but re-
member these three things and in-
stall them into the instincts of your
life you will be happy."

Rev. Father O'Boylan, pastor of the
church and superintendent of the
school then spoke to the class. His
talk was preluded by the recital of
a charming little Irish story of the
three helpless little gannets, who
strived to live on the rocks of the
North Sea, and how one by one they
were swept out and lost. So he lik-
ened innocent children, venturing
forth in the world to the three bird-
lings, and his address teemed with
many beautiful thoughts.

Rev. Father O'Boylan, then pre-
sented the diplomas. The members
of the commercial department num-
bered fifteen and were graduated un-
der the instruction of Sister Alber-
tine. Two members of this depart-
ment's class, Misses Mary Gilmore
and Grace Stasel, also received gold
medals, for having graduated from
the department of music of the Do-
minican Convent. The four members
of the regular high school course
were graduated under Sister Cor-
nelia.

The following received prizes for
excellent scholarship: Meriam Fitz-
patrick, Eva Winters, Mercedes
Ginter and John McCabe. Father
Father O'Boylan then invited the re-
mainder of the class to his home to-
day where he would bestow books
as prizes to them. Certificates were
distributed which had been given by
the A. N. Palmer company for su-
perior work in penmanship, to the
following: John McCabe, Eva Win-
ter, Margaret Bradley, Mary Gilmore
and Mary Prior. Herbert Murphy,
who is a member of the commercial
department was also given a certifi-
cate.

The ceremonies concluded with
the celebration of Benediction. The
commencement exercises will con-
clude on Wednesday evening when
the class will present the play "Mary
Magdalene," with a cast of 22 peo-
ple at the Auditorium theatre.

GRADUATED FROM ACADEMY.

Miss Bertha Buck, daughter of
Mr. and Mrs. David Buck, is home
from Columbus after having been
graduated from St. Mary's of the
Spring academy. Mr. and Mrs. Buck
and daughter will move to Toledo
the latter part of this week, which
city they will make their future
home and where Mr. Buck has built
and equipped a large wet wash
laundry.

MAN LOSES LEGS

UNDER WHEELS

OF B. & O. TRAIN

While beating his way on a B. & O.
freight train early Sunday, W. L.
Shaffer, 35, of Roaring Place, Pa., fell
beneath the wheels in the local yards
and suffered injuries which necessi-
tated the amputation of both legs
above the knees.

Shaffer's cries attracted the atten-
tion of the yard crew who found him
along the tracks. A call was sent for
the Bradley ambulance and the man
was removed to the Newark Sanita-
rium.

Dr. J. G. Shirer performed the opera-
tion removing both legs. The man's
condition is favorable.

BIBLE CLASS MEETING.

The I. V. Bible class will meet at
Y. W. C. A. Tuesday June 15 at 7:30.
Katherine Childs, a member of the
class will tell of her western trip.
Friends invited.

Attend Confederate Service.

Mayor Bigbee and William Holler
were in Columbus Saturday where they
attended the Confederate memorial
service at Camp Chase where 2280
Confederate dead are buried. Most of
these soldiers of the south died in the
Union prison at Columbus during the
Civil war.

HORSE RUNS AWAY,
WAGON IS DEMOLISHED;
DRIVER IS UNHURT

The horse hitched to the Hess gro-
cery delivery wagon ran away in
Eleventh street between Church and
Locust streets Monday morning, and
though the wagon was practically de-
molished, the driver and horse es-
caped uninjured. The animal was
driven by Mr. Hess' son and when a
bolt dropped out, allowing the shafts
to strike the horse's heels it became
unmanageable.

In turning the corner at Church and
Eleventh streets the vehicle struck a
waterplug. The animal took itself loose
from the wagon and continued east in
Church street, being stopped at Eighth
by William Robinson, street car motor-
man.

BIG CROWD WAS
PRESENT AT THE
PLAY GROUNDS

The playgrounds of Newark opened
Saturday for the season and large
crowds were present at the opening.
In fact the largest that has ever been
seen at White Field, 350 at
Halsey's and 250 at Riverside, a total
of 1,250.

Mr. Fred Gilman and Miss Gladys
Beecher are in charge of White Field,
Prof. C. W. Kloppe and Miss Hazel
Cook at Halsey Field, and A. B. Long
and Florence Hart at Riverside. At
the White Field two tennis courts are
now in operation and two more will
be built. These will be open all day
to the public and no charges will be
made.

The opening hours of the play-
grounds will be 8:30 a. m. to 7:30 p.
m. and on Thursday evenings White
Field will be kept open until 8:30.
Baseball games will be scheduled ev-
ery Thursday afternoon.

The three playgrounds are for the
use of Newark children and it is
hoped that they will all take advan-
tage of the many amusements that
have been provided for them. The at-
tendants in charge will look after the
little ones and they can pass many
happy hours romping over the
grounds.

Mr. L. G. Millisor, instructor in
athletics and director of the play
grounds, states that a number of
splendid attractions will be scheduled
throughout the season.

Personal

Mr. and Mrs. Harvey Lawler have
returned from a three weeks' trip to
Oklahoma.

Mr. and Mrs. E. H. Frame of West
Newark made an automobile trip to
Rural Dale, Muskingum county, Sun-
day, where they spent the day with
Mr. Frame's aged parents.

Dr. Parker of Kirksville, Missouri
is visiting at the home of his cousin
Amanda Rugg, 76 Fleek Ave.

Mrs. Howard Titus of Utica was a
visitor in Newark on Saturday.

John Lopper of Mt. Vernon is
spending a few days in Newark.

Hal de Bord of Woods avenue was
the guest of friends in Newark Sun-
day.

Miss Corinne Metz, daughter of
Mr. and Mrs. C. C. Metz of North
First street, is spending her vacation
with her parents. Miss Metz is
county librarian at The Dalles,
Oregon.

Mrs. Edward Schick and daughter
of Akron who have been visiting Mrs.
Schick's mother, Mrs. Lundy in Gran-
ville street, have returned to their
home.

Mrs. Fred Morris and Mrs. Graham
spent Sunday with friends in Mans-
field.

Mr. and Mrs. Frank E. Slabaugh
left in their automobile for Lima to-
day to attend the Odd Fellows'
grand lodge convention. Mr. Sla-
baugh will be installed Grand
Warden on Friday.

Eleven Cases Heard.

Mayor Bigbee Monday heard eleven
cases in police court, being the accu-
mulation of three days, there being no
police court Saturday morning. Most
of the offenders were charged with
loitering, there being several drunks,
most of them from out of the city.
Nominal fines were assessed.

The ice cream consumption of the
United States is estimated at five
quarts per capita annually.

CRASH

OF STEAM YACHT INTO PAS-
SENGER STEAMER CAUSES
DEATH OF TWO MEN.

Collision Occurred in Dense Fog, and
One Was Crushed While Seated
at Dinner

[ASSOCIATED PRESS TELEGRAM]

New York, June 14.—C. K. G.
Billings steam yacht Vanadis reached
Glencove, Long Island, early this
morning, with the body of John J.
Brown, of Boston; who was killed in
the collision last night between the
yacht and the big White Passenger
steamer Bunkerhill, of the Metropoli-
tan line. The body of the other victim,
George H. Kendrick, also of Boston
was brought back to New York with
the Bunkerhill when she returned
earlier in the night with a hole in
her side 30 feet high and nearly 20
feet long.

Brown and Kendrick and three
others injured in the accident were
passengers on the Bunkerhill bound
for Boston. The Vanadis rammed the
passenger steamer in a thick fog off
Eltons neck at the Eastern end of
Huntington Bay. The yacht backed
out of the hole in the Bunkerhill's
side with her bow smashed and
flooded with iron bedsteads and
other furniture swept from the state
rooms of the Sound liner.

Brown was picked up from the
water by the crew of the yacht, with
both legs broken. He died an hour
later. Kendrick was crushed to death
as he sat at dinner in the dining
saloon of the Bunkerhill. The life
boats of the Bunkerhill were swung
out on the davits and filled with
passengers but when the officers dis-
covered that the steamer was intact
below the water line they bade the
passengers return to the decks.
Stories told by some passengers re-
garding the behavior of the Bunker-
hill's crew await official inquiry. It
was said that some of the negro deck-
hands rushed for the boats and re-
fused to surrender their places. The
coroner of Glencove began an investi-
gation this morning soon after the
Vanadis arrived.

"Over the Wire"

Well, it's all ready! . . . but, if I
do say it myself, it looks a perfectly
gorgeous success . . . I am so sorry
you can't be here . . . is the ankle
any better? . . . I told you not to
try to ride that horse . . . my dear,
the gown is wonderful! . . . I never
looked better in my life . . . it is
triflingly complicated and may
sound horrible over the telephone
. . . There are three skirts . . . Two
of tulle over one of chiffon . . . the
chiffon is turquoise blue . . . over
that, violet tulle and over that black
tulle . . . the effect is beautiful . . .
the bodice is of violet silk shot with
silver and the right sleeve is black
tulle with old rose French flowers
trailing over it and down to the waist
line . . . the left side is held up by
a string of pearls, which crosses and
is caught at the waist and then falls
over the hip . . . and I shall wear
black opsey and a diamond hair orna-
ment . . . but I must tell you about
the decorations . . .

Obituary

Mrs. Louise Jones.
Mrs. Louise M. Reid Jones, died

Give the boy
a chance

A man's food must contain the
elements that repair the daily
waste of brain, tissue and muscu-
lar energy. A boy's food must
supply the elements that not only
repair waste, but build new brain,
muscle and bone. The food that
meets both requirements is

Shredded Wheat

a man's food and a boy's food, rich in
the proteins that repair waste tissue, that
perfectly nourish a growing youngster.

Don't blame the boy for mental backward-
ness. Feed him right. Shredded Wheat
contains all the body-building material in the
whole wheat grain made digestible by steam-
cooking, shredding and baking. Eat it for
breakfast with milk or cream. Eat it for
lunch with sliced bananas and cream. Eat
it for supper with luscious ripe berries or
other fresh fruits.

In Milady's Boudoir

BY GWEN BEARS.

Many women think it incumbent
upon them to paint and powder and
make fair the skin of the face, pow-
dering it to a ghastly whiteness, yet
the skin of the neck and throat is left
alone, and often a dark streak is al-
lowed to appear above the V shaped
opening of round neck. It seems a
pity that such necks are seen, when
the remedy is so near to find. Any-
one who will may have a well appear-
ing throat, so long as her age is on
the sunny side of fifty.

The too thin neck hints of ill
health but the proper exercise will
round it out and make it symmetrical.
These exercises consist of the slow
and gentle rolling of the head upon
the shoulders, first all the way
around from right to left for several
times and then reversing the motion.
The bowing of the head far for-
ward and then far back, then leaning

to the right side and then to the left,
these movements taken slowly and
gently night after night, will develop
the unused tissue which causes the
neck to lack roundness.

After such exercises the flesh
should be well scrubbed with hot
water and soap, carefully and thor-
oughly massaged with cream for at
least ten minutes, the cream re-
moved and cold water applied to the
glistening surface. The correct massage
necessary to break down and remove
fatty deposits around the throat are
best given by an experienced masseuse
who is familiar with anatomy. Care
must be taken to keep the muscles
firm and not to reduce too rapidly.
Hollows can be filled in by massage,
brown necks can be bleached and sag-
ging chins can be strengthened by
massage and the double chin can be
reduced. So there seems little ex-
cuse for the unsightly neck and
throat.

DO YOU FEEL DEPRESSED?

The form of influenza commonly called

"the grip" is no respecter of persons.

Rich and poor alike suffer from it.

The duration of the acute stage of the

grip is short, a few days at most. With-

out complications it is never fatal. What

makes the grip so dreaded is the miser-

able condition in which it leaves its vic-

tims after the cold and fever have run

their course. Some medical writers re-

fer to this "after-effect" of the grip as a

form of neurasthenia.

Depression of spirits, headache, thin

blood, deranged digestion, over-sensitive

nerves—these are the usual after-effects

of the grip, and they will continue even

for months and years until the blood is

built up and made rich and red.

After an attack of the grip all the vital

powers of the body are at a low ebb.

Building up the blood with Dr. Williams'

Pink Pills is the surest way to restore the

weakened body. They have a special

action on the nerves and every sufferer

from the lingering effects of the grip

should give them a trial. Your own

druggist sells them.

Write today to the Dr. Williams Medi-

cine Co., Schenectady, N. Y., for the

free book, "Building Up the Blood." If

you have stomach trouble ask for a diet

book also.

Lake Monday for a short time and

states that the bass are not taking

kindly to the lure. Mr. Burrell

states that the strikes are few and

far between and but very few good

catches have been reported so far

this month. Mr. Burrell, who is an

experienced angler, states that bass

fishing through July and August will

undoubtedly be much better than at

present. The small fry, sunbass,

croppies and Lake Eries, are being

caught in large numbers and that

kind of fishing is excellent.

EPIDEMICS ARE

DIMINISHING IN

SERBIA IS REPORT

Nish, Serbia, via London, June 14.—

In order to take more efficacious

measures against epidemics, a central

sanitary committee has been formed.

It is composed of the chiefs of the

American, British, Russian and

French divisions and a Serbian sani-

tary staff.

Thanks to the efforts of the Anglo-

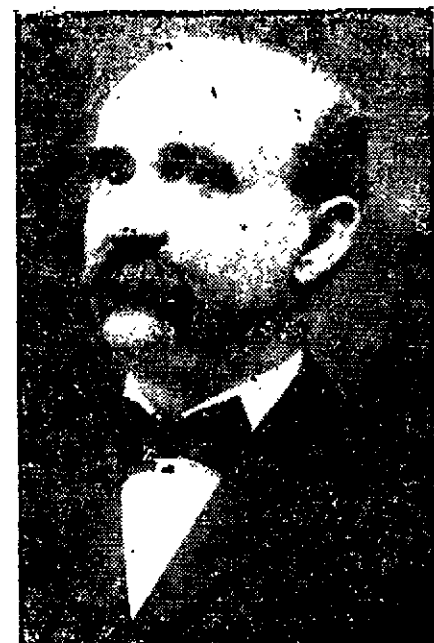

French missions the epidemics have

already greatly diminished. Twenty-

five American doctors arrived here

yesterday and fifty others are ex-

pected.

Executive committee, which was called
together Saturday afternoon at
the request of Congressman W. A.
Ashbrook for the purpose of recom-
mending a successor to Postmaster
J. H. Newton, that gentleman hav-
ing resigned, late in the afternoon
recommended Frank T. Mercer, pres-
ent clerk of the board of county
commissioners.Congressman Ashbrook Monday
stated that he would send in the
name of Mr. Mercer at once and af-
ter he is recommended by the post-
master general and named by Presi-
dent Wilson, he will be required to

FRANK T. MERCER

give bond and will then be ready to
assume office, which in all probabili-
ty will be about July 1.Frank T. Mercer was born in Clay
township, Knox county, "a good
many years ago," as he expresses it.
After completing his education he
began business in Mt. Gilead, O., re-
maining there two years, was also in
business for two years at Mt. Ver-
non, Ohio, thirteen in Centerville,
and has been a resident of this city
since the spring of 1898, serving the
last six years as clerk of the county
commissioners.Mr. Mercer served as postmaster
at Centerville, O., for four years under
the Cleveland administration and
left an enviable record. It is said
that he made a splendid official and
never had a report returned to him
for correction.All of the present employees of the
Newark postoffice are protected by
civil service so that in all likelihood
there will be no changes in the
working force. As Mr. Mercer states
there is no reason why any should
be made for he understands that
they are all faithful to the depart-ment. Mr. Newton after his retirement
from the office expects to take a
rest for the present to which he is
rightfully entitled. He stated Mon-
day that he has no immediate plans
except to enjoy a several months vaca-
tion and at the same time he will
continue to take an active interest in
party affairs.The following letter, which was
read at the committee meeting is
reproduced:To the Licking County Democratic
Executive Committee:
My Fellow Democrats:I desire on this occasion to express
to you my thanks and appreciation
for your endorsement and generous
action in my behalf at your previous
meeting. Such an expression of your
confidence and high esteem was a
recognition of my past record in
serving the cause

A BIG SUCCESS

The first week of the Dressmaking School has just been completed. The second begins tomorrow. You can start at any time. The store never bubbled with more enthusiasm than it has since the school started. It has been very successful and the scholars are so enthusiastic about it. We expected success because it has been successful in other cities. Ladies who have not been accustomed to sewing say it is simple under the direction of Miss Reilly--We would like to have your enrollment Tuesday if you can come in. The complete course of 6 lessons is only \$3.00 and you can arrange your days to suit your convenience.

HONORED

CITIZEN CLAIMED BY DEATH IN THE PERSON OF WILLIAM CHRISTIAN, SR.

Had Been in Ill Health for Several Months--Was Born in Newark--Funeral Wednesday.

William Christian, Sr., one of this city's best known citizens, passed peacefully away at his home in West Main street Sunday evening at 7:15 o'clock, after an illness extending over a period of nearly six months, the illness being due to a combination of ailments.

Mr. Christian suffered from a long illness in January and February, and was unable to leave his home for several weeks. He was able to visit his place of business, which had remained open during his illness.

WILLIAM CHRISTIAN, SR.

West Park place to West Main street but was not able to take any active part in its affairs. Later he suffered with stomach troubles and a complication of ailments extending over a period of four weeks and which finally resulted in his death.

William Christian was one of the city's pioneers and was known to almost every resident. His was a kindly nature, always ready to assist his fellow men whenever it was within his power. He always had a cheery greeting for everyone and his sterling integrity, uniformly recognized, was not a matter of conventionality but was a part of the very fiber of his character so that he was never denied the fullest measure of popular confidence and esteem of his fellow citizens.

William Christian was born in Newark, O., October 25, 1846. His parents came from Germany in 1839, landing in Newark by way of the Ohio Canal from Cleveland. His parents were in poor circumstances and when his father died he was placed out to work at the tender age of 16 years. When only 12 years old he started to learn the tailoring trade, in 1872, under the late J. K. Buckle of this city.

When twenty-two years old Mr. Christian was married to Miss Amelia Kreischmar, a daughter of Mr. and Mrs. Carl Kreischmar. She was born in Ober-Rossum, Kingdom of Saxony, Germany, July 29, 1844. The marriage of Mr. Christian and Miss Kreischmar took place on March 6, 1862, and was performed by the Rev. R. Shide, then pastor of the German Presbyterian church on Poplar avenue, he being a brother of Mr. Richard Shide of the Cherry Valley.

For 42 years Mr. and Mrs. Christian resided at 75 Poplar avenue, their first home and then moved to 107 West Main street.

Mr. and Mrs. Christian were blessed with five children, W. C. Christian, Director of Public Service, Frank H. B. Christian, and Fred M. Christian of the William Christian and Sons, merchant tailoring store, Lydia T. and Mary E. Christian.

Death has called only one of the children, Lydia T. Christian, who passed away September 7, 1910.

the late P. F. Rhodes, in South Third street, his partnership continued until 1910 when Mr. Rhodes retired and the business was continued by William Christian and Sons.

Mr. Christian represented the old Fifth ward in the City Council in 1887-88, and served on the Board of Education 27 years, finally resigning on account of ill health. For a number of years he was president of the Board.

Mr. and Mrs. Christian celebrated their golden wedding on March 6, 1912, at which time the children, one grand child and relatives and friends to the number of 75, assisted them in the celebration of the day.

Mr. Christian, survived by his wife with whom for 53 years, he journeyed along life's pathway, steering clear of life's breakers, that so often wreck and dash to pieces all the hopes, desires and enjoyment of marriage for living together in tender love and sweet sympathy.

Mr. Christian is not a member of any fraternal organization but he was an honorary member of Co. B, Old Guard, they have elected him to that membership several years ago, he being very popular with the old comrades.

The funeral will be held Wednesday afternoon at 2 o'clock from the Christian home. After Schull of Columbus officiating, Mr. Schull being a warm personal friend of Mr. Christian's, and a lecturer for the International Bible Study Association, with which organization he deceased was affiliated. The interment will be made in Cedar Hill cemetery.

UNITED TO OPEN PITTSBURG STORE

The United Woolen Mills company which has a branch in this city, will shortly invade the city of Pittsburgh, according to announcement just made from the general offices of the concern. W. A. Hersh, president, and W. W. DerMott, secretary of the company have just returned from the Smoky City where they successfully negotiated with the trustees of the J. Murray Clark estate for a twenty-year lease on a forty-two foot front lot at 536 and 538 Smithfield street, the same being located directly opposite the entrance to the great Oliver office building.

This deal involves over a half a million dollars in rentals, in addition to which several thousand dollars will be expended by the lessors in improving the property to make it available for their purposes. Possession of the property will not be obtained by the "United" until next May shortly after which date the company expects to open their largest store. The "United" now has seventeen large stores.
